

**Direct transfer to your DMS\*:**  
Save yourself the trouble of double entering order information and transfer the reviewed partslink24 orders directly to your DMS.

**Display purchase prices to selected customers\*:**  
The display of customer prices from the DMS no longer needs to be managed in the partslink24 discount manager.

pl24connect costs € 35 per month / licence.  
You decide the range of features you need.  
Simply select your personal “feature package” during installation.

- The add-on for all authorised dealers listed in partslink24
- Optimises the application of partslink24
- Individual range of features

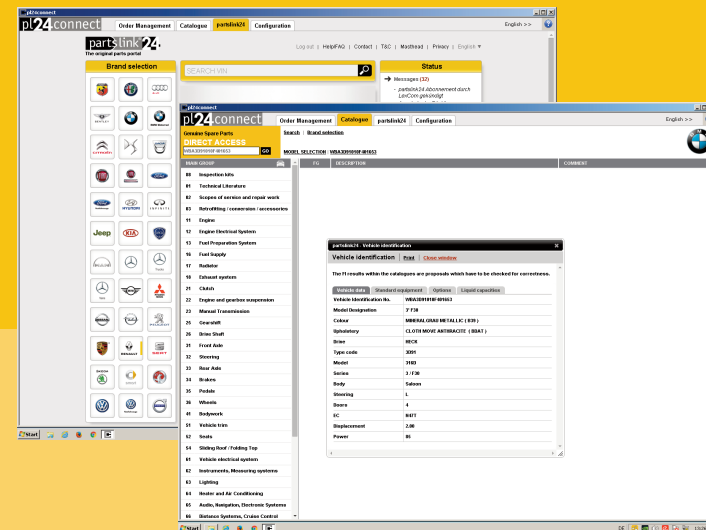

### Optimised order processing:

The messenger feature informs you in real time when a new partslink24 order is received. This is then automatically available to you in pl24connect for processing.

### Image-text-pages dispatch feature:

Stimulate the sale of parts for your brand(s). Generate additional business easily at the click of a button by making targeted purchase recommendations to your customers.

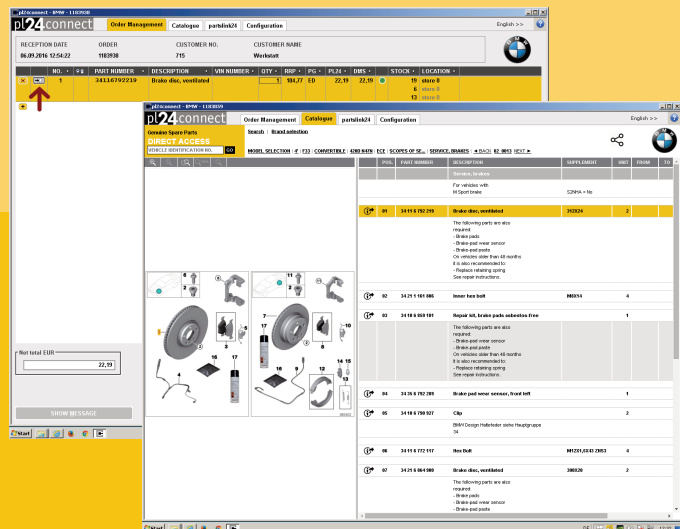

### Access to all partslink24 catalogues:

Order original parts from other brands as well, if required. It goes without saying that you also have convenient VIN access to the partslink24 catalogues.

## With its intelligent functions, pl24connect simplifies the ordering process making daily operations easier.

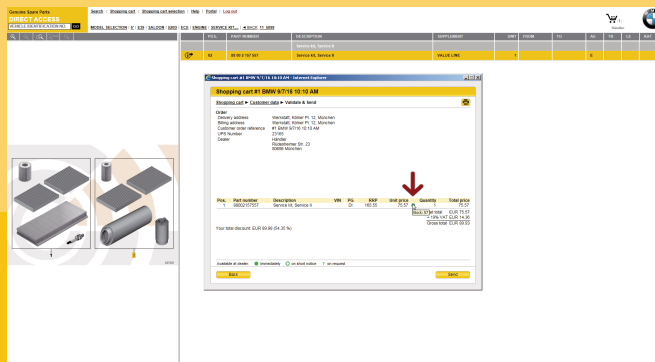

### Convenient order checking:

You can see the image-text-page used in the order by clicking on the ordered item. This feature allows an order to be checked and corrected if needed.

### Inventory information in real time\*:

Speed up the ordering process and show selected customers your inventory directly in partslink24.

\* This feature requires a connection to your DMS. More information can be found in the pl24connect lounge which you will soon be able to access through the partslink24 website.

\* Please note: When using the campaign management in pl24connect, you must ensure that the promotion prices in partslink24 correspond to the prices in your DMS.

### Campaign management\*\*:

Create and manage your own campaigns and optimise the approach used for each individual customer.
